

# STILL WATER CAPS

## WISECAP GROUP

### SABIC® HDPE POLYMER

---

#### INDUSTRY CHALLENGE

The ambition of the beverage Industry is to down-gauge still water caps without negatively impacting the environmental stress cracking resistance (ESCR) performance, cycle time and end-user experience.

#### SABIC SOLUTION

SABIC® HDPE CC860V polymer offers a good balance of stiffness, impact and aesthetics, while the purity of this resin fulfills the high demands of organoleptic performance. It allows cap manufacturers to design and produce lightweight caps via injection molding with short cycle times and high part performance for demanding applications, such as caps & closures for still water bottles.
