CHEMISTRY THAT MATTERS™

GAROFALO PASTA PACKAGING

PASTIFICIO LUCIO GAROFALO, G.T. POLIFILM AND POLIVOUGA

CERTIFIED CIRCULAR SABIC® PP FOR BOPP FILM

INDUSTRY CHALLENGE

Reducing the use of fossil-based resources, incorporating recycled content and support full recyclability for packaging; help minimize plastic packaging waste and meet stringent food packaging industry standards without compromising the quality of the packaged content.

SABIC SOLUTION

A premium range of pasta packaging made with certified circular SABIC® BOPP polymer from TRUCIRCLE™ portfolio are produced by advanced recycling of used mix post-consumer plastics, supporting up to 80% reduction of fossil depletion and contribute to the development of a circular economy.

The sustainable material is derived from advanced recycling, and converted into a BOPP + Cast PP film laminate for this application, which is the first pasta mono-PP packaging material in the market containing in the range of 30% of post-consumer recyclate (PCR).
Once used, the mono-PP bags can easily be recycled again in the existing PP waste streams.

- COMPLIANCE WITH FOOD SAFETY
- CERTIFIED CIRCULAR SOLUTION
- IMPACT & PUNCTURE RESISTANCE
- PROCESSING & RELIABILITY
