

TETHERED CAPS

SABIC

SABIC® HDPE POLYMERS

INDUSTRY CHALLENGE

The packaging producers need to comply with the EU tethered cap regulation by 2024 with minimum disturbance over the value chain and without increasing unit part- weight and -cost.

SABIC SOLUTION

SABIC® HDPE grades for tethered caps are aimed to support beverage brand owners to comply with the new Single-Use Plastic Directive that makes caps and lids to remain attached to all beverage containers mandatory by 2024 in the EU. Supporting “Design for Recycling” and providing its technology expertise, innovation centers and the best of manufacturing processes, SABIC offers SABIC® HDPE organoleptic polymer grades that can answer the need for increasing mechanical and part performance requirements for tethered cap designs.
