

CHARGE AMPS DAWN EV CHARGING STATION

SABIC AND CHARGE AMPS

CERTIFIED RENEWABLE LEXAN™ POLYCARBONATE RESIN

INDUSTRY CHALLENGE

Electrification of society presents new challenges to build out the infrastructure to support this shift, by making electric vehicles and their associated infrastructure more powerful and cost effective.

SABIC SOLUTION

SABIC is supplying Charge Amps, a leading Sweden-born provider of innovative and sustainable charging solutions for electric vehicles (EV), with its certified renewable grade LEXAN™ PC.

SABIC's renewable PC from its TRUCIRCLE™ portfolio is made from second-generation bio-feedstock that is not in competition with the food chain. It can fulfil stringent industry standards for the making of EV support equipment in terms of safety, reliability, and in addition, offers efficiency in manufacturing.

This will help enable Charge Amps commitment to become a responsible player in the EV charging ecosystem. SABIC's certified renewable grade LEXAN™ PC allows Charge Amps to combine lower carbon emissions with their premium exterior design, ultimately helping to support the world's transition to an electric future.
